MD SPEAK

New Year, New Goals.

Another year has started, it is a New Year that we hope will bring new products, new commitments and new targets. We are happy to announce the launch of EKOYOGURT-the possibility to make the healthiest Buglarian Yogurt now in your home or in your Dairy Plant to add value to health.

The past year was in every way something to remember with some big changes in the way India will do business. Demonetization and GST have ushered in a new era of business, it has brought in new opportunities and new challenges. It is now one India and one market. This offers channels for unlimited growth and also competition.

As always, we are committed to provide the latest products and technology to our customers with a reputation to deliver what we promise. New and exciting revolutionary products are being developed and tested by us and our partners which we will offer soon to support you in your growth and to help you reach new heights in your business.

Karan Nangia
Founder and Managing Director

Director SPEAK

For the past 50+ years, Jupitor-Benny Group has been leading through innovation and raising brand value in fulfilling its role of promoting health throughout the market as well the society as a healthy company on its own. "Profitable Growth" is an important pillar of our business as only through profitable growth can a company go beyond survival and keep on advancing year on year. Our business methods include developing new products on latest technologies that bring added value to our customers, improving our existing products into smart ones to keep pace with the new technologies - such as big data and Cloud businesses. We always keep in mind that quality is the most basic and absolute commitment in building trust with our customers, and also encourage our suppliers to follow suit.

We look forward to your continued support and interest through our journey of change as we continue to grow and fulfill our responsibilities towards our customers, employees, environment and society.

Nishu Nangia
Director

EkoYogurt Probiotic Starter Culture Launched First Time In India

EKO Yogurt™
STARTER CULTURE
THE HEALTHIEST YOGURT YOU CAN MAKE AT HOME
Probiotic

Jupiter-Benny Group has launched Probiotic Yogurt Starter Culture for home and commercial use having strains of Lactobacillus bulgaricus and Streptococcus thermophilus first time in India. EKOYOGURT Probiotic starter cultures are freeze dried and packed in Bulgaria, the natural habitat of Lactobacillus bulgaricus that is regarded as the main reason for the long life of Bulgarians with an average age of 104 years in areas where the cultures exist.

EKOYOGURT probiotic Freeze dried starter cultures are live bacteria, especially good for the digestive system. Our body is full of bacteria, both good and bad. Probiotics are the 'good' or helpful bacteria that help keep our gut healthy. Milk fermented with this culture makes yogurt with beneficial probiotics and is a balanced source of protein, fats, carbohydrates, vitamins and minerals making it a SUPERFOOD.

Online distribution and promotion of EKOYOGURT PROBIOTIC STARTER CULTURE B2C segment.

JUPITOR LIFECARE PRODUCTS (A subsidiary of Jupitor Glass Works) has launched online distribution and promotion of EKOYOGURT PROBIOTIC STARTER CULTURE for their B2C segment on **facebook** and **website- www.ekoyogurt.com**.

THE HEALTHIEST YOGURT

FSE MEET 2018

JUPITOR-BENNY GROUP SERVICE ENGINEERS

Jupitor-Benny Group has more than 70 Field Service Engineers (FSEs) spread all across the country. To provide better timely service to customers and to monitor their service from BIPL Delhi, from January 2018 each FSEs mobile has been provided with a special Internet WEB based Software (APP) so that they can record all services being provided by them in the APP and their movement which will be monitored online at BIPL Delhi. An Annual workshop was held at BIPL Delhi from 8th to 10th January 2018 attended by all FSEs to take their feedback and to upgrade their knowledge for improving their servicing skills, to familiarize them with latest hardware and software development of BIPL's Automatic Milk Collection Systems and to make them aware of BIPL's prevailing administrative policies. This Workshop was also used to train all FSEs in the use of BIPL's latest Web Based Servicing APP.

BIPL's Authorised Service Centres:
